This City Council Resolution was passed on September 23rd and the instructions have been submitted to LADOT to implement. I have already reached out to the head of Parking Management to inquire when the parking signs will be installed and they are getting back to me as far as timing. I have also made the inquiry to expedite the installation and/or fabrication of said signage to see if the BID could pay another vendor. Here are the parties that you can reach out to:

I am using all the “tools” that the City has available to constituents. I will keep the pressure on; however I am confident that when the Oversized Vehicle signs are installed the parking problem and nuisance factor will be reduced greatly. Feel free to reach out to any of the above people in our local government as they are well aware of the current status of Lillian Way and perhaps they will be able to assist you in a different manner.

Thank you
